RE: University of Louisiana at Monroe – Request to change
name of undergraduate degree program

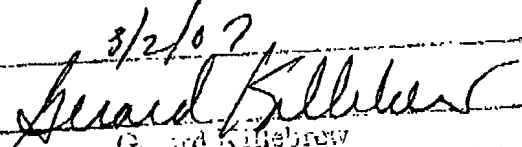

Administrative approval has been given by this office for the University of Louisiana at Monroe to change the name of the undergraduate degree in *Speech Communication* to *Communication Studies*. The title change more accurately reflects the curricula and the practical applications of communication to various real world occupations.

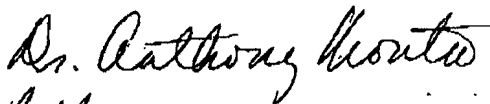

The attached letter from Dr. Stephen P. Richters includes the rationale for the name change. Your assistance in securing Board of Regents approval for this requested change is most appreciated.

Dr. Loren Blanchard, Provost
and Vice President for Academic and Student Affairs
University of Louisiana System
1201 North Third St., Suite 7-300
Baton Rouge, LA 70802

Dear Dr. Blanchard:

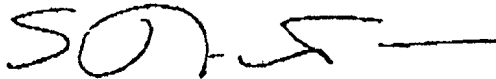

The University of Louisiana at Monroe respectfully seeks administrative approval to change the name of one of the undergraduate degree programs housed in our Department of Communication from *Speech Communication* to *Communication Studies*. The broader title of *Communication Studies* more accurately reflects

1. the curricula as currently taught in the Department of Communication,
2. and the practical applications of communication to various real world occupations.

This title change would also help eliminate the common misperception that "speech communication" has limited value as an undergraduate degree because it is focused entirely on "public speaking." As a final note, their national professional organization has renamed itself as the *National Communication Association* after a long history as the *Speech Communication Association*. There are no costs associated with this change.

We respectfully request permission to proceed with this change.

Sincerely,

Stephen P. Richters, Provost
and Vice President for Academic Affairs

capstone courses. However, the UCC expresses its concern that the proposed course falls short of the spirit of that standard, which is to ensure that capstone courses incorporate creative, collaborative projects allowing students to synthesize and analyze material. The textbook-based approach evident in this syllabus would seem not to be in keeping with the underlying principles of the capstone experience.

Palmer, Stevens

The Department of Psychology offers an undergraduate curriculum in psychology which provides a basic arts and sciences education including courses in all major content areas of psychology. The program is designed primarily to provide students with background and skills essential for further professional or graduate study in psychology. Students who select to major in psychology do not have a minor field option.

Current Text:

A student must earn a grade of C or better in each course required in the major. A grade of D is non-progressive; the course must be repeated with a minimum grade of C before a student can progress to the next sequential course. A course transferred from another institution must show a grade of C or better.

All students must pass a departmental grammar examination before progressing in the major. This exam is administered as part of MCOM 210, both near the beginning and near the end of the semester. It is often offered once between semesters. Students may retake the exam on any of its scheduled offerings.

Students electing to major in Mass Communications choose among concentrations in Journalism, Public Relations, Management and Marketing, and Media Production. The requirements for each concentration include cognate courses consisting of studies in related academic fields.

Mass Communications majors must complete a minor and take liberal arts and sciences and general electives outside the major. A minimum of 80 semester hours must be completed outside the major, of which a minimum of 65 hours must be in the basic arts and sciences.

**COMMUNICATION STUDIES
(CMST)**

The Communication Studies curriculum provides an integrative view of communication and a critical understanding of the role of communication in culture and society. A student electing a major in Communication Studies will learn to speak eloquently, write effectively, interact cooperatively, listen empathically, argue persuasively and think critically.

The requirements for the major in Communication Studies include cognate course consisting of related studies in Mass Communications. A student electing a major in Communication Studies has the option of choosing an academic minor.

The student must earn a grade of ‘C’ or better in each required in the major. A grade of D is non-progressive; the course must be repeated with a minimum grade of C before a student can progress to the next sequential course. A course transferred from another institution must show a grade of “C” or better.

A minimum of six hours of the Communication Studies elective must be completed at the 300 or 400 level.
