Streamlining Broadens . . .

The "Tech Talk," official organ of Louisiana Tech students, is made in a streamlined fashion this year.

Incidentally, streamlining means that the heads are flushed to the left of the column; all heads are in lower case type; and all advertisements are pyramided.

Swing Music Stimulates . . .

According to the current "College Humor," Max Schoen, psychology prof. of Carnegie Tech believes that swing music is a wonderful stimulus for young people.

Faculty Data . . .

Things you probably didn't know about our faculty: Dr. Grace Ingledue, speech instructor, was formerly physical education director for girls at this college.

Former Ed Makes Good . . .

Seymour Glazer, who edited the Pow Wow last year, is now at L.S.U. working as a reporter on the "Daily Reveille," student newspaper.

Close Flays British . . .

Upton Close, noted author and adventurer who spoke at Northeast Junior college last week on the Town Hall program, branded the British, and especially Neville Chamberlain, as virtual trouble-makers.

Classes Favor Train Trip and Student Council

Freshman and Sophomore Committees Appointed to Urge "Special" to Hammond

The freshman and sophomore class officers assured the student body this week that they would strive toward getting a special train to Hammond for the Southeastern football game on November 17.

The officers of the freshman class met on Monday and appointed a committee to meet and present their ideas concerning the train trip to Dean Colvert.

Sophomores Meet

On Tuesday the sophomore class held its first meeting of the 1939-40 school year and committees were named to plan the proposed train trip and homecoming activities.

Originally it was suggested that the trip to Hammond be made in buses, but the students protested so strongly against the bus caravan that the newly elected freshman and sophomore officers decided to take action on the matter.

Presidents Comment

Harry Addison and Bill Singleton, presidents of the freshman and sophomore classes, respectively.

College Adds Two Teachers

A large increase in enrollment necessitated the recent appointment of two additional instructors, Miss Carrie Mae Stephenson, assistant in science and mathematics, and Mr. W. C. Honeycutt in English.

Miss Stephenson received the B.S. and M.S. degrees from Louisiana State university and has had teaching experience in various high schools of the state.

When asked their impressions of Northeast Junior college, Miss Stephenson responded, "This is a wonderful place, and there is no other school in which I would rather be teaching."

Homecoming Date Oct. 27th

The date for the annual Homecoming day has been set for Friday, October 27. The Homecoming football game will feature the Northeast Junior college Indians versus the Coptah-Lincoln Wolfpack.

Preliminary plans for the annual celebration include a large parade, barbecue, and a dance after the football game.

Dean Colvert announced this week that, in accordance with the plan that was begun last year, the college will be hosts to high school seniors from various schools of North Louisiana on October 27.

At the sophomore class meeting on Tuesday, committees were appointed to prepare for the numerous activities which will be held on Homecoming day.

Head Important Organizations

Mary V. Beard, left, and Roy Colter, right, presidents of the Purple Jacket and Commerce clubs, respectively, for the 1939-1940 school year.

Help The Community Chest!!

Under-privileged children need food! N.J.C. can aid the Community Chest in its drive.

October 23 through November 24 will be dedicated to build up the local Community Chest. Talks will be given at the various high schools and colleges throughout the twin cities.

During this special month it is hoped the Northeast Junior college band will join the high school bands in a parade to aid this drive.

Let's prove our humanitarianism, students, by doing all we can to assist the Community Chest! Every little bit helps.

Agriculture Club Formed

G. K. Broadway Elected Head of New Organization

At the organization meeting of the Agriculture club, called by Dr. Kathryn Wolfe on October 5, the following officers and committees were selected: G. K. Broadway, Monroe, president; Paul Butler, Oak Grove, secretary; Hubert Newport, Alexandria, reporter.

A committee appointed to arrange regular meeting dates included Hubert Newport, Victor Green, and K. T. Doshier.

A constitutional committee appointed at that time was comprised of Ben Kimble, chairman; Cecil Wells, and Paul Gowan.

High School Records of Frosh Reveal Numerous Activities

(By Emale Gattis)

The freshman class of N.J.C. is not only the largest in the history of the school, but it is also composed of many outstanding and interesting students.

Did you know that twenty-one members of our ace football squad are freshmen? These "huskies" hail from all parts of the United States.

The freshman class roll also contains some former basketball stars: Edna Chapman, Willie Edna Tarbutton, Mary Lea George, from Ouachita; Audrey Bales, from Kilbourne; Virginia Sawyer, Lucille Arrington, Erlene Lusk, from Epps; and Louise Gray, Mary Givens, from Bastrop.

Laverne Larson and Joyce McKoin are noted for the way they "hurl 'em over" in softball.

Carolyn Royce and Martha Marshall have shown remarkable skill in their tennis. Martha won first place at the district rally in Ruston and third place at the state rally.

Classed with the "go-getters" is Clarence Martin, who won an all-expense trip to the New York World's Fair this summer by selling magazines.

Monica Liles, former editor of the Bastrop High paper; Vera Jones, last year's editor of the Baskin High paper; and Evelyn Wade, former editor of the Ouachita Lion, should prove very valuable to the Pow Wow this year.

also of Bolton, is head cameraman on the yearbook staff.

Marjorie Pearl Gaskins has a most interesting story to tell about her seven months work for the Transylvania, La., Project, which is sponsored by the U.S. Department of Agriculture for the purpose of rehabilitating the farmers in the Tallulah district.

Included in our cheering section are several former high school cheer leaders: Mildred Keller, Dorothy Waldrop, Clarence DuBos, St. Matthews; Lynn Stokes, Mangham; Garland Moore, Neville; Gloria Hodge, Rayville; E. P. Chapman, Clarks; Guice McDuffie, Bastrop; and Emma Jean Thomas, Grayson.

Among those who are still receiving applause for their valedictory addresses given on that all-important night, are Thelma Merline Jones, Mangham; Gloria Hodge, Rayville; Florine Noland, Start; Erlene Lusk, Epps; Elizabeth Eason, Clarks; and Emale Gattis, Neville.

The intelligence quota at N.J.C. will certainly hit the top this year with so many district rally winners; Margie Sue Lee, French; Margie McKoin, shorthand; Lloyd Lenard, French and declamation; Mildred Meredith, home economics; and Noves Royce, geometry. All hail from Ouachita high.

Some of our favorites on the campus are Marillyn Rolleigh, former president of St. Matthews senior class; Charles McKay, former president of Bastrop senior class; and Billie Ryder, who was one of the campus beauties at Bolton.

The Glee club will not be left out for we have some "songsters" who placed first at the Natchitoches festival of music; Frances Smith, Mark Mayo, and Geraldine Manning. Jane Humphries took first place in piano.

Board Meets Tomorrow to Decide Aviation Issue

Editor Attends Conference

Colleges throughout the state sent representatives to Ruston today to form a State Collegiate Press Association, sponsored by Louisiana Tech. Jimmie Russell, editor of the Pow Wow, left this morning to attend the meeting.

Religious Groups Organize, Elect Officers for Year

Ray Maynor, Katherine Mickel, and Jimmie Burnett Head Church Organizations

Religious groups on the campus organized last week, elected their officers, and made preliminary plans for the coming year.

The Methodist Student Union held its first meeting Oct. 9 with Bill Mayo, president of last year, presiding. The following officers and chairmen of standing committees were elected: president, Ray Maynor; vice-president, Nelda Caldwell; secretary-treasurer, Carolyn Royce; publicity superintendent, Emale Gattis; sergeant-at-arms, Alvin Gleason; program chairman, Bill Byrd; social chairman, Betty Duchkar; and contact chairman, Mary Sue Davis.

Promotes Christian Fellowship

Ray Maynor, newly elected president, stated, "The purpose of the M. S. U. is to promote Christian fellowship among our college students. The entire Union extends a cordial invitation to all Methodists and to those who have no church preference to become a member of the M. S. U."

The Presbyterian Student Union also held its initial meeting Monday. The following officers were elected: president, Katherine Mickel; secretary, Helen Price. Other officers will be chosen at the next meeting.

Hammond Sponsors Group

The new president, who is a member of the Presbyterian Student Association Council, a state organization, introduced the faculty sponsor, Mr. W. R. Hammond, who spoke to the group on the purposes and plans of the P. S. U.

The Baptist Student Union held its first meeting Monday, Oct. 2. Two new officers were elected: Nellie Ruth Brooks, secretary-treasurer; and Harvey Rester, reporter. The feature of the program was a beautiful solo rendered by Mr. Dallas Goss.

Alumna Edits Minden Paper

Kathleen Cox, alumna of Northeast Junior college, has recently become editor of the Webster Review, weekly paper published at Minden, Louisiana. Miss Cox was graduated from N.J.C. in 1937, where she took a very active part in campus life.

Miss Cox attended L.S.U., where she took an interest in many of the campus organizations, and was a member of the Phi Kappa Phi, national honor society. Last June she received her B.A. degree in journalism from the university.

Colvert Eager for Course To Be Offered Here

The Board of supervisors of L.S.U. will meet Saturday, October 14, to decide if Northeast Junior college can enter into a contract with the Civil Aeronautics Authority to offer a course in ground instruction and pilot training. Dean C. C. Colvert expressed hopes this week that the project would be approved.

Hebert O.K.'s Project

Northeast Junior college has already received approval of the C.A.A. for the training of pilots, and only the sanction of L.S.U. is necessary. A committee from the local Chamber of Commerce recently conferred with President Hebert of L.S.U. on the matter. Dr. Hebert then recommended to the board that it authorize N.J.C. to participate in this national program.

Ten May Enroll

Being a registered student at N.J.C. is not necessarily a prerequisite for participation in the training, the Dean said. Only ten applicants will be accepted and these must pass the physical examination and pay the fee of \$40. Student pilots will get 72 hours ground work in classes to be held four times each week for 18 weeks. During the course the students must get from 35 to 50 hours in the air.

If the Board of supervisors does pass favorably on the issue, Dean Colvert will obtain additional time to begin ground training, as the C.A.A. specifies that instruction must begin by October 15. Ground training will begin immediately and flying instruction will follow in about two weeks.

## On to Hammond

At the first assembly of the current school year Dean Colvert predicted that a large group of the student body would be ready to go to Hammond on November 17, to see one of the best games scheduled for the Northeast Junior college Indians this season.

Since that time lively debates have been in progress all around the campus. Those of the affirmative point of view have introduced a new plan: a train trip rather than a bus caravan. All sophomores who made the trip to Kilgore, Texas, last year agreed that the bus caravan was out of the question for such a long distance. They remembered the discomfort and wrinkled clothing resulting from the trip on the bus.

It was then that some of the old timers stepped forth to praise the special train that took the student body to Hammond three years ago. They agreed that the train provided room to walk about as well as to sit in comfort. An additional advantage was the cold drink stand which was placed in the baggage car. But the big point stressed was that the train cars are connected so that everybody can be together and have a jolly good time, which, after all, is one of the main purposes of such a trip.

## Fight 'Ism' With Education

Today, civilization is tottering on the brink of destruction. Thirsting for power, half-crazed demagogues have unleashed their war dogs in two of the old-world continents and have started a war that threatens to involve every important nation existing. It is a major opinion that if the "isms" win the war the world and democracy could not bear the blow.

These existing conditions have raised a question that is uppermost in the hearts of many American youths—how may the youth of America keep democracy safe? Every day democracy is being derided by its foes and doubted by many of its friends. Freedom stands only so long as free men make it stand against the winds of intolerance and abuse.

How then shall we protect democracy from Communism, Nazism, Fascism and all the other "isms"? It shall not be by abridging the rights of assembly. Nothing wins them so many converts as subversive influence. We must attack them at their weakest spot—education. You cannot fight an idea by banishing it. Every good American who wishes to fight the "isms" must lend every effort to clean up our disgraceful slums and to assist the less fortunate. When you have abject poverty widespread; when people are out of work; when houses are damp, dirty, cold and crowded; when children cry for food—there you have a soil fertile for the "isms". We, in order to combat democracy's enemies, must educate children in the different fields of government and social life. Let us teach them what life is in Germany, Italy, Russia, and other totalitarian states. Let us give them a passport to a happy land, where everybody is equal, by affording them liberal education which will lead them to believe in power beyond themselves. It is of the utmost importance that we support a system of liberal education that we may enter and live in a world of ideas, of beauty, and of thought.

Above all, let us cast away this hopeless outlook of pessimism and fear that has invaded American hearts. No setback to economic recovery can be so disastrous as the weakening of faith in the worthwhileness of the effort. Faith or courage is creative; despair is destructive. We must work to better the situation, for through work comes faith. There must not be a letdown in social morale or we shall fall. This should be the American program. It will cause the most of discomfort to our enemies; it will do the most to perpetuate and preserve the type of government our forefathers willed to us.

## Are You Guilty?

It is said that we do not know how to appreciate things until we do not have them. If the students of Northeast Junior college continue to abuse the social room as we have been doing, we shall soon know how to appreciate it.

It is time that we learned to conduct ourselves as college men and women. We are not in high school any longer and have few restrictions placed upon our going and coming. With this freedom, we seem to have gone rampant and lost all sense of values.

Last year was the first time the social building was ever used. It cost \$90,000 to erect it. The social room, with ceiling fans, sound proofing, Venetian blinds, and furnishings amounted to a little more than \$1,000.

Some depreciation in the furnishing is expected, but when it comes to abusing the furniture practically beyond repair, then it is time that something should be done. Dean Colvert stated that under ordinary circumstances the furniture should last about five years. He also stated that unless better care is taken of the social room it will be closed.

When Dean Colvert said "Make yourselves at home," that is what he meant. Making oneself at home, however, does not imply the abuse of furniture. Students who show so little respect for college property would probably resent the abuse of furniture in their own homes.

## Schedule Change

The Pow Wow has been swamped with requests suggesting that we publish an editorial urging that the present class schedule be revised so as to afford a lunch period between the fourth and fifth period classes.

Judging from the information we have received from the activities committee, it is evident that a change would seriously affect the schedule of club meetings, which the committee is arranging. Due to the added enrollment several new organizations have been formed on the campus, and if meeting times are to be arranged for each of them, the present class schedule will have to continue to be observed.

Were it not for the fact that the club meetings have to be held during the day, or if it were in any way possible for the organization meeting schedule to be arranged differently, we would certainly be one hundred percent behind a drive to alter the class schedule.

These students who favor a change in the present arrangement evidently do not know the facts of the case. If they will consider the facts mentioned above, they will undoubtedly realize that the classes and organization meetings can be arranged in only one way—the present way.

## College and War

(By Associated Collegiate Press)

With international developments definitely the number one news interest of the nation, U. S. colleges and universities are daily feeling the effects of the current European war in many ways.

Here is a quick review of incidents that, though unrelated, clearly point to the fact that higher education is not spared during times of conflict:

1. R.O.T.C. courses are more popular than ever before, and institutions throughout the nation are reporting large increases in enrollment in both military and naval reserve training programs.

2. Courses that deal with other peoples and other nations and with political science are enjoying a greatly increased popularity.

3. Anti-war groups and movements have been started on many campuses. Lectures on the world situation are well attended. Addresses at most college opening convocations featured the attitudes and duties that must be assumed by undergraduates during these trying times.

4. First proof that international propaganda is being directed at collegians was a broadcast from Berlin that was sent "by friends in Germany to Amherst college." The program featured skits and Amherst songs. Said the Amherst student paper of the broadcast: "Saturday's broadcast was of value to Amherst if for no other reason than because it gave concrete evidence of the barrage of propaganda with which every American will be pounded during the war."

5. The American Association of University Women has adopted a new program of international education "to get the most accurate information on the issues involved."

6. The federal government has increased the civilian pilot training program to include 260 U. S. colleges and universities. College R.O.T.C. units are now teaching the new streamlined drill formations adopted by the other branches of the military service.

7. The effect of another war (Japan vs. China) was felt at Texas State College for Women when students could not get enough Japanese lanterns to make effective the traditional Lantern Parade.

Through these developments collegians are being strongly impressed with the fact that, even though the U.S. is neutral, the effects of war reach over the highest of neutrality walls.

## Bitters and Sweets

By Byron Grigsby

Nell DeLee's retirement from found. Perhaps Dr. Colvert's psychology class could work out something to help. She resigned on Monday morning and was back in school Tuesday. Some speed.

Jimmie Russell, editor of the Pow Wow, received a propoganda sheet highly praising the work of Adolf Hitler, and Jimmie, always looking for business, wrote the following letter back:

Mr. Adolf Hitler  
Somewhere in Germany  
Dear Adolf:

Received some most interesting information regarding your program, and I was very glad to hear that you are still alive. At this time I would like to mention our advertising. The Pow Wow is read by at least 700 people, and we can give you a full page ad for the small sum of 20 bucks. I am sure this ad would gain you many followers, because some of our students will believe anything they see in the papers. Hoping to hear from you soon,  
Jimmie Russell,  
Editor, Pow Wow.

Mary Alice Sanderson's schedule: Campusology, 2 hours; Garland Moore, 8 hours; subjects, 3 hours; Seab DeLee, 1/2 hour (class meets once a week, usually on Friday night).

There are many types of headaches, but after considerable study and experience, I have classified them under three types:

The first type, and perhaps the most common in the lives of a college student usually comes after a Friday night dance. The victim awakens in the morning with severe pains in his cranium (or head, as it is called by everyone except Dr. Wolfe). The best and perhaps only cure for this is complete abstinence from any activities during the day that might jar the head.

The second type, strangely enough, seems to come around exam time. The victim of this type awakens on the said day that he is to take this exam, and since he feels worse every minute, decides that he is too sick to attend school. These headaches usually disappear around three-thirty in the afternoon and the victim feels better, decides to get out of bed and walk around to the girl friend's house.

That brings us to the third type, the headache that is usually seen hanging onto a college boy's arm: namely, his sweetheart (or sometimes his wife). He gets a severe headache at the mention of movies, dances, or any other form of expensive socials. The best cure for this has not been

found. Perhaps Dr. Colvert's psychology class could work out something to help.

The DuBos-Evans affair is still going strong, but we'll bet two to one that it doesn't last past mid-term. . . I wonder if Mary Eleanor Coverdale sat on the bench or in the stands during the L.S.U.-N.J.C. game . . . The political rivalry last week got hot early on election day, when Garland Moore and Lloyd Lenard came to blows over a certain question. Rumors have it that they were arguing about things other than politics. . . Sparky Spough has already found a girl this year to take the place of his last year's flame. I believe her name is Ryder. . . Marilyn Rolleigh is pursued by many of our dashing young Cassanovas, but her heart still belongs to Leon Fergus. . . Lee Melton, one of our cheer leaders, has been seen Pecking (get it?) during the last few days. . . The Green Wave turned out to be a small trickle. . . At the time of this writing Peavy and Holmes are battling for the affection of Monica Liles. . . Will someone please tell Sue McBride to polish her nails at home instead of waiting until she gets to school every day?

Gordon Stout is now president and general manager of the College Friend—at least, that's what Jack Rushing says. Whenever someone enters the place to transact business, Jack refers him to Gordon, who promptly takes care of things in his own way.

Whatever their position, most editorialists implore the issue to be divorced of politics, and ask that the legislators think calmly and sanely on the issue that may decide the future of our democracy.

## Parade of Opinion

(By Associated Collegiate Press)

Neutrality . . .

U. S. college students—some 1,400,000 strong—returned to classrooms and campuses last month amid a loud chorus of warnings and implorings. They were warned by the press and the presidents to maintain an open and thinking attitude on the present European war. They were implored to use their every influence to keep the U. S. out of the war and to lend every energy to a sincere study of the world's problems and how they can be met.

From the surveys that have appeared to date, it appears that the average collegian has heeded these warnings and these commands. He maintains that he does not want to go to war, that he wants the U. S. to remain neutral. But he seems to have no objection to the U. S. selling goods of all kinds to the warring nations, so

## Colvert's Corner

One thing that is outstanding about this year's student body, aside from its scholastic qualities, is the gentlemanly and ladylike conduct. Many have commented that this year's student body is well behaved in and around the buildings.

Criticism on one particular point has been mentioned. Some say the students are not assuming any responsibility as individuals or as groups toward caring for the social room. Some students put their feet on the furniture, and nobody reminds them to take them down. Others mistreat the furniture without anyone else calling such things to their attention.

I must say I believe such treatment of the furniture on the part of any individual is due to carelessness and his lack of thinking. I further believe no one will object to being reminded that he is unthoughtfully abusing the furniture. Everyone will welcome cooperation in keeping the room attractive at all times.

I THINK YOU CAN, AND I BELIEVE YOU WILL.  
Cordially and sincerely,  
C. C. Colvert, Dean.

long as it is on a cash-and-carry basis. First real objection to the President's proposed neutrality act changes was made at St. John's University, where 650 students signed a letter to the Chief Executive protesting "a new partisan neutrality act without first consulting the people through the medium of a referendum." This movement has not yet gained much headway.

College newspaper editorial opinion, though about evenly divided, seems leaning toward the President's proposal that the neutrality act be changed to provide for sale of materials to belligerents that can pay for it and transport it from our shores.

The argument of those who oppose the change is neatly summarized by the St. John's University Record: "If the embargo were lifted business would undoubtedly flourish in America—for a while, that is as long as Britain and France could pay cash. Britain and France, because Germany would never be allowed to purchase here. After England and France could not pay cash, our loans to the democracies would almost inevitably begin again. And there is the danger! That is how we started last time."

For the affirmative, the University of Iowa Daily Iowan states the case: "Congress has two facts to go by. (1) We want peace. (2) We'd fight—or a substantial minority of us would—if defeat began for the democracies. The logical conclusion to this line of reasoning is lifting the arms embargo now."

Most strongly do all editorials affirm the fact that U.S. collegians do not want to fight on a foreign soil, but they will bear arms if our own land is threatened. Just how strongly entrenched this belief is will be determined in the dark days of propoganda that lie ahead.

Embargo . . .  
As the fight on the arms embargo continues to occupy the forces in congress, the front pages of all U.S. citizens, so too does it dominate the political thinking of collegians.

A tabulation of the polls taken on various college campuses indicates that the students favor the maintenance of the present embargo law by a vote of better than 2 to 1. These polls, though not representing a large enough sampling to be entirely reliable, were taken on campuses in all sections of the country, and certainly indicate a trend of thought among collegians.

So far as the college press is concerned, editorials written to date show that there is about a 7  
(Continued on page six)

## Former N. J. C. Students Pledge Greek Organizations

The fraternities and sororities in other colleges are apparently welcoming N.J.C. alumni and ex-students with open arms, judging from the reports that have been pouring in.

From L.S.U. we hear that A. B. Myatt has pledged Kappa Sigma; Thad Howell, Pi Kappa Alpha; Johnny Terrell and Clint McCain, Delta Kappa Epsilon; Joe Rolfe White, Sigma Chi; Fred Thatcher, Lambda Chi Alpha; Benton Holt, Phi Delta Theta; Bernice Bernstein, Alpha Epsilon Phi; Snow Drew and Gladys Emma Whitfield, Alpha Omicron Pi; Joe Evelyn Bales and Katherine Brown, Alpha Xi Delta; Susan Miller, Beta Sigma Omicron; Mary Hayward, Chi Omega; Martha Cook and Kathleen Roleigh, Delta Delta Delta; Lanier Cordell, Delta Zeta; Evelyn Baur, Phi Mu; and Magdaline Amman, Kappa Delta.

Centenary sends word that Burchall Liles has become a pledge to Kappa Alpha. At University of Alabama, Jane McKenzie pledged Chi Omega.

Mr. Seymour Glazer, former editor of the Pow Wow, will be a visitor in Monroe this week-end.

A week-end visitor at Louisiana Tech was Miss Beth Rinehart.

Miss Helena Hayward and Miss Nell DeLee will be the guests of Miss Mary Hayward of L.S.U. this week-end.

Miss Nelda Caldwell was a visitor on the Tech campus Sunday afternoon.

Mary Wilbur McKee, former student and cheer leader at Northeast Junior college, was elected cheer leader at Stanford university.

Che Che Hinkle underwent an appendectomy at the St. Francis sanitarium last week. She is now at her home, 109 Hilton.

Former students of N.J.C. who are now pledge presidents at L.S.U. are Clint McCain of Delta Kappa Epsilon, and Benton Holt of Phi Delta Theta.

The Pre-Meds stole a march on the other clubs with the first social activity of the year, a picnic at the home of Dr. Wolfe Monday night.

Many N.J.C. students attended a charming open house after the L.S.U. Frosh - N.J.C. football game Friday night at the home of Miss Betty Middleton.

## U. S. Education Affected by European War

(By Associated Collegiate Press)

War—the great destroyer of progress and routine living in college as well as out—is again disrupting the lives and the plans of countless U. S. educators and educational organizations.

Although the nation is not directly engaged in the second great European conflict, here is a quick survey of how the war is affecting higher education today:

### Rhodes Scholars Suspended

Rhodes scholarships have been suspended for this school year. The 1939 scholars-elect will remain in this country, and those already in England have been asked to return to the U. S. as soon as passage can be arranged. But scholarships now in force are not cancelled. They are only suspended until circumstances make it possible for them to be resumed.

In addition to the Rhodes scholarships, all foreign student exchanges between this country and Europe have been cancelled. More than 300 students are affected by this war-time measure. In addition to this, some 7,500 students who each year study abroad at their own expense will be forced to continue their education here.

### Marine Engineering Course

First announcement of a curricular change in a U. S. university comes from Massachusetts Institute of Technology, which has instituted a new advanced course in marine engineering. This move was made because of the prospect of an enormous expansion in naval and merchant shipbuilding in the next ten years. U. S. navy officers will aid in giving the course.

R. O. T. C. students worrying about their status should the U.S. be drawn into the war, have this announcement of an army official to establish their responsibilities: "The R. O. T. C. cannot be called by the federal government, as it has no jurisdiction over the university units." R. O. T. C. students need not serve sooner than a person who has not had such training, the official indicated.

Some 70 colleges and university presidents are graduates of Indiana University.

The federal government spends \$14,000 for every student graduated from the U. S. Naval Academy.

The first college gymnasium in the U. S. was erected in 1860 at Amherst College.

FRED WARING and his famous Glee Club rehearsing his original Football Song for introduction on "Chesterfield Pleasure Time" over the Coast-to-Coast N. B. C. Network.

## Fashion Fads

As we came out of the social building the other day, we were confronted by such a glare that we thought summer had returned in all its glory, but—no, it was only Hubert Chandler's wine, gray, green, red, blue and white sweater. We were still gasping when our delicate nervous system received another shock. A bright red shirt and curly blond hair rounded the corner. Fortified and ready to face anything after that, we went our fashion-conscious way.

Our quivering nerves were somewhat soothed when we noticed Sis Coverdale in a striking example of the co-ed costume—sweater and skirt. (A hint: Keep your eye on this girl. She's always up to the minute in new fads or fancies.)

And speaking of new fads, please note: Mary Alice Sanderson's white moccasins; Mildred Keller's purse and mittens from Switzerland, beflowered and bedecked in every imaginable color. We beg you, don't miss Jorge's novel Cuban jacket.

It may be a twin act but whatever it is Lucille Pugh's and Gloria Hodge's identical British tan jackets are certainly stunning. Equally eye-catching are Pete and Fred's green striped shirts.

We were ready to find a hole and hide our heads in shame (us being feminine) when we saw Eddie Holmes' love of a green and tan jacket, and Vincent Westerman's green, brown, and tan sport shirt. And we were absolutely green when we ran into Henry Hoexter (our pal from overseas) and got an eyeful of his mottled black, wine and white shirt with a matching red and black belt.

This college life is really a colorful one. There's a red sweat-shirt on the campus—very outstanding when worn with red curly hair. Harvey Rester is quite the typical college lad with a Scotch plaid jacket and a pipe. We saw Buddy Duchkar the other day in a blue velvet shirt; wouldn't have thought it of you, Buddy. Walter Paschal has a favorite canary yellow number. Sparky Spough has a purple shirt, or had you noticed?

Co-eds at their best: Lodi Cann in a pink angora sweater; Martha Ann Moore in a gold sport dress; Beth Rinehart wearing her "Purple Jacket"; Monica Liles appearing in a purple and dusty pink ensemble; Virginia Brown in blue.

What Nots: There are buckles on Billy Stevenson's shoes. Why, Billy? Hazel McDonald wears her hat and sun glasses pinned on her dress, in miniature of course. Billy Burke has an identification tag; if in doubt, just look at the visor of his cap. Florence Flucker and Che Che Hinkle have turned to straw for purses; they say it stretches nicely.

But all good things come to an end and this fashion-seeking frolic met an untimely death when we were smugly eating our lunch in the cafeteria. Two feet hove into sight, two feet so clad as to send violent shudders over us—one in a summer sandal and the other in a heavy Oxford. It was the straw that broke the camel's back.

## Library Books Discuss Hobbies And Vocations

To the student who wants to be up-to-date in his vocation or pet hobby, the library offers these suggestions in material recently acquired.

Of interest to the art students is the new three volume set: *The History of Art*, by Joseph Pijoan. The aim of this work is to cover the entire history of art. In these three volumes, it is interestingly and completely presented, and it is very beautifully illustrated. Of equal interest to art students is Reiss and Schueizer's *You Can Design*. Here is at least a simple method by means of which you can learn creative designing whether you have had previous knowledge of art or not. The approach to design outlined here provides a basis for developing facility for expression.

The student of the science department will find very readable material in H. G. Wells' new book, *The Science of Life*. This is a fascinating story of man's struggle for existence. An unusual book in the field of botany is *Edible Wild Plants* by Oliver Perry Medsger. Data assembled over a space of thirty years formed the basis for this first com-

## Football Players Honored By Purple Jacket Club

### Mitchell Visits Campus

Dr. B. F. Mitchell, Dean of the Junior Division of L.S.U., was a visitor on the campus Thursday. He came to determine the additional needs of the college caused by the increase in enrollment.

## Pre-Meds Make Good in Many Vocations

Dr. Kathryn M. Wolfe, instructor in science, discusses her former students frequently with animated pride, and recently gave an extremely interesting comment on several of the early graduates of Northeast Junior college who have continued to pursue their chosen courses.

Among these we find Dr. Harold Wilenzick who was graduated from the University of Tennessee Medical school and is now a well established Monroe dentist. Paul Colvin, of Northeast Junior college class of 1935, was graduated from the United States Naval academy at Annapolis, Md., last June. Byron Bayne graduated from the Gradwohl School of Laboratory Technique in St. Louis in 1936. He is now X-ray and laboratory technician at a Monroe clinic. J. W. Cunningham, who is a registered pharmacist in a Monroe drug store, received his degree in 1936.

Dr. Max Fink was graduated from the Southern college of Optometry at Memphis this year and is now situated in Lafayette. Roland Fink graduated from L.S.U. last term.

Charles Mosely, Jr., received his degree from L.S.U. medical school in June. He is living in New Orleans, where he is an interne in the Charity hospital. Dr. Wood Scott, house physician at St. Francis sanitarium in this city, plans to work with Drs. Jones and Jones of Monroe when he has completed this year's work.

Walter Culpepper, Jr., is a senior in Tulane medical school. Burdette Trichel is a junior in L.S.U. medical school. Theron Willis and Faheam Cannon are sophomores at the same school.

The University of Illinois is constructing new campus buildings at a cost of \$3,400,000.

Portuguese has been added to the list of foreign languages taught at the University of Texas.

plete handbook of America's wild menu. Botany students will also find *Poisonous Plants of the United States*, by Mulnscher, an interesting and constructive book. For the student's general reading pleasure, the library recommends: *Alone*, by Richard E. Byrd. This is the story of Byrd's five month isolation at Advance Base, the place far south of Little America, where in 1934 he barely escaped death.

*Neutrality For The United States*, by Barchard and Large: An intelligent and devastating book of how America got into one war and, what is more important, how it can escape entanglement in the present conflict.

Sunday from two till four the football players were entertained at an informal open house in the social building. The hostesses on this occasion were the Purple Jackets. The purple and gold theme was carried out in the flower arrangements. Tasty refreshments: doughnuts, hot dogs, and punch, were served at intervals during the afternoon.

Purple Jacket members who attended the function were Sidney Ruth Waddle, Jo McCook, Nell DeLee, Patsy Slack, Lucille Pugh, Lillian Guynes, Helena Hayward, Mary V. Beard, Marian Smith, Beth Rinehart, Florence Flucker, and Mrs. Annie Lee West Stahl, sponsor.

Guests included Mr. and Mrs. James Malone, Mr. A. S. Huffman, Rudy Broussard, Bill Singleton, Don Short, Ralph Kuethe, Irving Ziedman, Gordon Stout, James Blackwell, Walter Paschal, John Nicosia, Mickey Westbrook, Roe Wroten, Ray Young, Roy Smith, Gayle Morris, Sparky Spough, Max Hutchins, John Porter, Tommy Younse, Jake Lively, Cecil Casper, Grover Barnes, John Evans, Mike Mihalic, Bill Abraham, Harold Hansen, and Harold Lawson.

## Study in Bed; Get Best Grades

(By Associated Collegiate Press)

New York City.—Study in bed and get good grades!

That's the conclusion of Columbia University's instructor in Irish culture, Collins Healy, after a long and detailed study of Irish methods of study, which revealed that the students of the Emerald Isle did their studying while in a lying, reclining or horizontal posture.

"The vision of schools equipped with reclining and sleeping accommodations may seem fantastic and far removed from what we currently consider good educational practice, but psychological investigations accredit the horizontal posture during study as sound," Mr. Healy says.

According to Edmund Campion who wrote his history of Ireland in 1571, Mr. Healy continues, it was a common sight to see students "groveling upon couches of straw, their books at their noses, themselves lying flatte prostrate, and so to chaunte out their lessons by pece-meale, being the most part lustie fellows of twenty-five yeares and upward."

## Religious Groups

(Continued from page one)

Mr. A. B. Pitts and Mr. Goss are the faculty sponsors of the union.

### Prosperous Future

Jimmie Burnett, president of the B. S. U., said, "We seem to have a very prosperous future ahead because of the enthusiasm of the large group present at the first meeting. All Baptist students who are interested are invited to attend the next meeting."

On completion of the Library building, each of the student unions will be given its own room in the main building. These organizations will meet the second and fourth Monday of each month at the first activity period.

## Agriculture Club

(Continued from page one)

Membership of the organization include: Walter Le Ferne, Bryant King, W. M. Johnston, Fay Howell, Irvin Head, Morris McGough, Jack McCartney, Ben Moon, Lawrence Rooney, Le Von Robbins, Jimmie Thames, Talmadge Crosby, Burton Berry, G. K. Broadway, George Butler, Paul Butler, S. W. Mason, Bernard Miller, Buddy McDuff, Odell Welch, George Webb, Lewis Tolbird, Allen Thompson, K. T. Doshier, Homer Coleman, Charlie Cobb, Aubrey Clark, George Gowan, Paul Gowan, W. W. Taylor, Victor Green, Hubert Newport, Ben Kimble, and Cecil Wells.

### Commerce Club Activities Begin

#### Group Elects Officers At Initial Meeting

The Commerce club, one of the largest organizations on the campus, has begun its varied activities for the 1939-40 school year. At the first meeting officers were elected as follows: Roy Colter, president; Gayle Morris, vice-president; Marilyn Rolfeigh, secretary; Sue McBride, treasurer; Tim Heninger, reporter; and Fred Hudson, sergeant-at-arms.

**Student Directory**  
The club is planning many activities for the year. The first project will be the publication of a student directory, which will appear in approximately two weeks. The delay in its release is due to the fact that many students registered late. This year's directory will be much larger than last year's, because of the increased registration.

**Committees Appointed**  
Several committees have already been appointed and more will be designated at a later date. Serving on the committee appointed to collect data for the directory are Roger Larsen and Geraldine Funchess. The purchasing committee is composed of Lucille Pugh and Monica Liles. The Bulletin committee is to work on the Commerce Club Bulletin, the club's monthly publication, which includes news, jokes, gossip, business hints, and editorials.

### 7796 Enroll at L. S. U. This Year

University, La., Oct. 13.—A total of 7,796 men and women had registered at the Louisiana State university in all of its four centers for the first semester at the close of the registration-credit period noon October 7, it was announced at the central offices early this week following receipt of figures from the other centers. This figure is 251 below the first semester figure of 8,047 of last session.

The enrollment is apportioned as follows: main campus in Baton Rouge, 6,580; school of nursing education at Charity hospital, New Orleans, 84; medical center, New Orleans, 415; Northeast Junior college, Monroe, 575, and Lake Charles Junior college at Lake Charles, 142. This is the first year for the operation of the Lake Charles college. Enrollment at the junior college in Monroe, established in 1934, is the largest in the history of the center and is 152 more than at the corresponding time last year.

### N. J. C. Alumnus Has Excellent Dramatic Record

Louis Guerriero, recently elected director of the Monroe Little Theater, returned October 5 from the summer theater in Plymouth, Massachusetts. For his excellent record in the L.S.U. speech department, Louis was chosen as the best actor upon graduation this year and was awarded a six weeks scholarship to the Plymouth Summer Theater, where he was offered an opportunity to act in many plays and continue his study of scenery designing and building. He was given added honors when he became a selected member of the company for an extended time of three weeks and when he was offered a position to act again next summer at Plymouth. His merit was recognized also by Alabama State university, where he has been offered a teaching fellowship in the speech department.

**Will Direct Play**  
After he returned from the East, Louis became director of the Little Theater in Monroe. He will direct five plays this season. The first of these plays, "Susan

and God," by Rachel Crothers, will be presented near the end of October.

**Speech Club President**  
Louis began his successful career at Northeast Junior college in 1935. He participated in the Little Theater Guild and became business manager and later president of the Speech club. He was also on the Pow Wow staff for two years as a columnist and a reporter. During that time he had some experience directing Little Theater plays in Monroe.

### McMullen Heads Speech Club

At a recent meeting of the Speech club Jane McMullen was elected president for the coming year. The other officers and committee chairmen are as follows: vice-president, Hazel Bandy; secretary, Marian Smith; business manager, Gayle Morris; acting committee, Emale Gattis; directing committee, Annette Lieber; membership committee, Patsy Slack; social committee, Mary Beard; publicity committee, Blanche Etta Hair; stage committee, Zach Daughtry; radio committee, Mark Mayo; house committee, Juanita Lippmin; publicity committee, Monica Liles; make-up committee, Freddie Norris.

At this meeting all who applied for membership were accepted as pledges. They were given pledge ribbons to be worn during a probation period of four weeks. Last week Dr. Grace Ingledue, sponsor of the club, entertained the members with an interpretation of a one-act play, "The Finger of God" by Oscar Wilde, and a short story cutting, "Make-up." The Speech club has made plans for an extensive program, including one-act plays, two major productions, an interpretation by Dr. Ingledue, a verse-speaking choir, and a debating team.

### Extension Classes Will Be Held

Mr. L. M. Norton has been authorized by Mr. P. H. Griffith, director of the division of extension of L.S.U., to announce that a number of extension classes will be offered in Monroe during the current school year. The courses to be organized will be arranged to meet the needs of the prospective students concerned.

Courses in Louisiana history, sociology, conversational French, physical education, speech, and education will be offered. Speech courses, including drama, radio, public speaking, and fundamentals, will be taught by Dr. Grace Ingledue. Education courses will be given by Dr. Nason. Both of these will carry graduate and undergraduate credit. Miss Ada Bess Hart will have charge of the physical education group. Undergraduate credit can be earned in all except the education course. These classes are scheduled to meet once a week.

### French Club Names Officers

Le Cercle Francais of Northeast Junior college held its initial meeting October 2nd under the sponsorship of Mr. P. A. Duet. The following officers were elected for the year: Patsy Slack, president; Katherine Michel, vice-president; Loren Newburn, secretary; Anne Goodwin, treasurer; Harvey Rester, sergeant-at-arms; Evelyn Wade, reporter.

Following the pattern of last year's club, the organization plans to have the entire business meeting in French. The program chairman disclosed no important plans, but said the committee hoped to have several notable speakers during the year. Le Cercle Francais will meet on the first and third Monday each month. One of these is to be a business meeting, the other a social.

Out of town students who attend Northeast Junior college are seen leaving one of the four new modern buses used daily to carry them to and from the college.

### French Are Less Excited Over War Than Americans, Says Duet

#### N. J. C. Instructor Discusses France's Position In Conflict

Mr. Paul Duet, French instructor at Northeast Junior college who returned from France on the eighteenth of September, just as Nazi submarines were intensifying their warfare on Atlantic steamers, feels that the French as a whole are less excited over the European war than are many Americans.

When asked about the attitude the people had toward Hitler's actions, Mr. Duet answered: "Within the past year there has been a vast change in the people's opinions on that subject. A year ago the French wanted to let Hitler do as he pleased, so long as he did not invade France. The horrors of the past war had not been forgotten, and they wanted to prevent a similar occurrence, if possible. They hoped that Hitler would cease invading various territories after he had gained Czechoslovakia and Austria. This hope still existed until the recent agreement between Russia and Germany was drawn up. It was the pact that opened the eyes of the French people, causing them to understand that Germany had further aggressive intentions. Then their attitude toward the situation changed. Feeling that war was inevitable, they said, 'Why not fight now and get it over with?'"

#### Air Raid Precautions

Mr. Duet continued, "The French then began earnest preparation. Taxes were levied on practically everything; food prices were raised; transportation expenses increased, and numerous other adjustments were made. They feared that their larger cities would be bombarded from the air if war did occur. As a precaution they have constructed numerous bomb-proof basements under the larger buildings. In various public places are posters which direct a person to one of these basements in event of an

air raid. On every Thursday at twelve o'clock sirens are sounded to accustom the citizens to this signal which will be given when an air bombardment occurs.

"In June each civilian of the larger cities was given a gas mask. These masks came in three sizes—large, medium, and small. I wanted to buy one for a souvenir, but they would not permit me to carry it out of the country."

**Describes Maginot Line**  
Although Mr. Duet did not see the Maginot line, he gave a very vivid description, based on reports from soldiers.

"It is a line of fortification which begins at Switzerland, extends along the eastern boundary of France northwestward to Belgium, and terminates at the Strait of Dover. This line is made up of trenches, forts, and underground rooms where the soldiers stay during peaceful times. These rooms are furnished with radios and other conveniences so that the boys can have a little fun occasionally."

#### Political Nature

When discussing the political nature of the French, Mr. Duet said: "They are a very individualistic people. Each person has his own idea about different national questions and it sometimes takes months to get them unified enough to pass a bill. Due to this fact, it was very essential that they agree to give Daladier full dictatorial power in event of war."

Mr. Duet expressed grief at the very thought of the destruction of the beautiful French capital, Paris. If every individual could visualize the horrors and futility of war as he does, there would undoubtedly be eternal peace.

Twelve special students have been selected to take every course offered at Oglethorpe University. It'll take each one six years to complete the task.

The Ohio University football team was undefeated in a home football game from 1927 to 1937.

### Collegiate Review

University of Wyoming students last year spent \$64,500 in membership dues in student organizations. \$23,373.75 was for national dues, pins and initiation fees.

Salaries of Barnard College graduates and undergraduates who were given positions through the college occupation bureau last year totaled \$173,443.

A special course in the Russian language and literature has been added to the Cornell University curriculum.

Thirteen University of Texas students were on the British ship Athenia when it was torpedoed at the opening of the European war.

It would take one person 41 years to complete all of the courses offered by the University of Texas.

Cinemas Fredric March is leading a drive for funds to provide technical equipment for the new University of Wisconsin theater.

### Former Students Run Bookstore

Phillip Embanato and Helena Hayward, former students of Northeast Junior college, hold the positions of manager and assistant manager of the college bookstore this year, respectively.

After serving in their new capacities since the beginning of the school year, Phillip and Helena are extremely pleased with their positions.

"We feel like students again," they said, "because we come in contact with many students and friends every day. We like it over here, but sincerely wish that all the freshmen would learn to return their pop bottles when they are through with them."

### Singleton and Addison Win in Class Elections

Bill Singleton, candidate from the Purple and Gold sophomore ticket, and Harry Addison, representing the freshman Purple and Gold party, were victors in the class elections, held last week. The sophomore Purple and Gold party had an overwhelming majority over their opponents, members of the Superprogressive group, but the freshman winners were divided between the P and G and the Indian parties.

**Other Officers**  
Other Sophomore officers are as follows: Charles Regan, vice-president; Che Che Hinkle, secretary; Marguerite Ikerd, treasurer; Don Short, sergeant-at-arms; and Mary V. Beard, reporter.

Freshman officers are: Monica Liles, vice-president; Lloyd Leonard, secretary; Roe Wroten, treasurer; Garland Moore, sergeant-at-arms, and Juanita Lippmin, reporter.

**Extensive Campaigns**  
Extensive campaigns were held previous to the election. Candidates attempted to influence voting by distributing circulars, speaking from sound trucks, offering free candy bars, and making numerous promises.

Faculty sponsors elected were Mr. L. N. Norton for the sophomore class and Mr. E. J. Brown for the freshmen.

### Regan Names Yearbook Staff

The staff of the 1940 Chacahoula, college yearbook, was announced this week by Charles Regan, editor-in-chief. Members of the annual staff and their positions are as follows: Ray Maynor, Che Che Hinkle, and Jane Shear, associate editors; Barbara McKenzie, Betty Evans, and Lucille Pugh, feature editors; Hubert Newport, Jane Humphries, and Henry Hoexter, snapshots and photography; Gloria Hodge and Lim McCoy, freshman editors; Vera Etta Green and Harvey Rester, sophomore editors.

Louise Sanderson and Dorothy Horton, organization editors; Freddie Norris, art editor; Frances Smith and Patsy Slack, events; Pete Peevy, Roger Larsen, and Maxine Calhoun, sports; Byron Grigsby, humor editor.

Members of the business staff are: Virginia Brown, business manager; Gloria Hodge, Blanche Etta Hair, Fred Hudson, Dallas Wales, Annette Lieber, Dorothy Horton, Sara Frances Strong, and Billy Ruth Ryder.

The libraries of U. S. institutions of higher learning contain more than 62,000,000 bound volumes.

# L. S. U. Freshmen Down NJC 12-7

The Indians of Northeast Junior college were defeated 12-7 by the hard charging L.S.U. freshmen here last Friday night in a thrill packed game that kept one of the largest crowds of the season standing on its feet most of the time. The loss was the only one of the season for Coach Malone's charges and marked the first time this year that N.J.C.'s goal line has been crossed.

**Indians Draw First Blood**  
The locals drew the first blood of the game when "Rowboat" Wroten, shifty halfback, returned the opening kick-off a good 100 yards on a reverse to score standing up. The attempted conversion sailed squarely between the uprights to make the score read, L.S.U. 0, N.J.C. 7

A couple of good breaks and a 15-yard penalty against N.J.C. combined with some of the hardest running we've ever seen, gave L.S.U. a touchdown mid-way of the third quarter. The kick for the extra point was blocked. The Baby Bengals pushed over the winning score with but two minutes left to play. Receiving the ball on their own forty, after an exchange of punts, the L.S.U. frosh opened up with murderous power plays and drove to the Indians' goal line for their second touchdown. The attempted conversion sailed wide.

**Looked Good In Defeat**  
All in all, the N.J.C.-L.S.U. frosh tilt was one of the best games ever seen around Monroe. The Indians looked good even in defeat. Time and again the Tribesmen's forward wall repulsed the powerhouse plays of the hard-charging Baby Bengals. The Tiger backs were some of the best ever seen here.

Of Capital University's 1939 education graduates, 72 per cent have been placed in teaching positions.

Don Short left, and Bill Singleton above, two of the main cogs in the N.J.C. gridiron machine.

## N. J. C. Squad Battles Ouachita College Tonight

The N.J.C. Indians left early this morning for Arkadelphia, Arkansas, where they play the strong Ouachita college Tigers.

**Undefeated, Unscored On**  
Ouachita college is undefeated and unscored on so far this season. N. J. C. has played Ouachita college three times, losing two of the three encounters. In 1934 the Tribesmen played the Tigers for the first time and came out on the short end of a 7-0 score. In 1935 the end of a very close game saw N.J.C. the victor with a 6-0 score. In 1936 the Ouachita team repeated its victory of 1934 by defeating the Louisiana boys 12-7.

**Short, Singleton Injured**  
Coach Jim Malone, of the Tribesmen, said that his team was not at top strength due to several injuries to his key men. Don Short and Bill Singleton both suffered minor infractions in last week's battle with the "Baby Bengals" of L.S.U. It is doubtful if either of these boys will be able to get in tonight's game. Other members of the team who were slightly hurt in last Friday night's game are: John Evans, Hal Hanson, and "Red" Barnes. This trio have recovered and will probably be in tonight's game.

Despite the crippled condition of the team, Coach Malone stated that the boys will be out there fighting to bring back the Ouachita Tiger's scalp.

## Colleges Show Large Gain in Enrollment

(By Associated Collegiate Press)  
Cincinnati, Ohio.—Despite depressed business conditions in the current decade, American college and university attendance in this period has shown a gain of 22 per cent, Dr. Raymond Walters, president of the University of Cincinnati, reports in a paper on "Recent Trends in Student Enrollment."

Factors contributing to the maintenance of college and university attendance from 1930 through 1936, according to Dr. Walters, included "the sheer circumstance of a lack of jobs"; financial help in the form of more than \$38,000,000 in a typical year given by the institutions themselves to 330,000 students as scholarships, grants-in-aid, loans, and similar assistance, and in the form of \$16,000,000 the same year from the National Youth Administration to 180,000 students; and the students' own desires to attain objectives "which transcend statistical appraisal. The intellectual and cultural enrichment of their lives and finer service to America."

President Walters warned, however, that student bodies in institutions of higher learning may not continue to increase or even maintain their present numerical level.

## Swanson Lauds Indian Squad

Coach "Red" Swanson of the L.S.U. baby Bengals, said in an interview after last Friday night's game that N.J.C. had a fine team. The play that scored the first points of the game was perfectly executed by the Tribesmen. Coach Swanson stated that, in his opinion, Don Short was the best player that N.J.C. had on the field Friday night.

Comments by a number of the L.S.U. players were to the effect that they had never played against a team that fought as hard as the Tribesmen did. Several expressed the hope that they would never have to face another team as tricky as the Indian squad.

These comments from the coach and players of what is called the "best L.S.U. freshman team in the history of the school" are a worthy tribute to our boys.

Louisiana State University has been placed on probation for six months as regards federal student aid.

This year's college and university enrollment in the U. S. is expected to total approximately 1,400,000.

Of the 1,500 different types of positions for which the U. S. civil service commission offers examinations, only approximately 200 require a college degree or its equivalent.

The only Gaelic college in North America is located at St. Anna's, Nova Scotia.

## W.A.A. Elects Officers for Year

The Women's Athletic association held its second meeting Tuesday and elected the following officers: president, Edith Dixon; vice-president, Vera Etta Green; secretary-treasurer, Martha Hopson; reporter, Emale Gattis; chairman of intra-mural tournaments, Florine Works.

The W.A.A. will meet the second and fourth Tuesday in each month, second activity period. Plans are already being made for tournaments among the members. When these are finished, intra-mural tournaments for the whole school will be held.

Twenty-five members of the W.A.A. are majoring in physical education. This is the largest number of physical ed majors in the history of the school.

## Huffman's Column

The first intra-mural game this semester was played in volleyball between the first and second period physical education classes with the second period emerging victorious in two straight games. The boys were allowed to choose an activity of their own accord which will be continued for nine weeks. Then a new activity will be chosen by everyone.

Examinations are nearly complete. For those who were forgotten, doctors will be on hand Monday. Watch the bulletin board for your name if you are one of these.

The gymnasium will be open all activity period for the use of the students, and the equipment will be at their disposal. The only requirement is that they wear rubber sole shoes.

The first rounds in the boys physical education tennis tournament have been played. Those advancing to the second round were Jimmie Lawrence, R. Rushing, John Duchkar, James Adams, and J. Bains.

Exactly 260 colleges and universities are participating in the pilot training program of the Civil Aeronautics Authority.

## Wails and Wahoos

(By Lloyd E. Lenard)  
**Baseball Season's Grand Finale**  
By the time the Pow Wow is off the press, one of baseball's best seasons will be a thing of the past, for the last game of the World Series will have been played.

This corner picked the big guns of the Yankees to make short work of the Reds, and take their fourth straight national pennant. The Yankees are due to stay on top as long as they are able to grab the pick of all the minor league stars and leave the mediocre players for the rest of the teams. The Yankees by means of their powerful "chain" system, have made a joke out of American league competition and are seriously hurting the national game through their monopoly.

**L.S.U. Squad Takes to Air . . .**  
For the first time in the history of the university, an excited bunch of Bengals boarded two specially chartered airliners the other day, bound for Boston, Mass., for their inter-sectional game with Holy Cross college. Forty-two players and aides composed the party.

The University of Mississippi made history as the first university squad to take to the air when they flew north for an inter-sectional game in 1937.

**"Der Maxie" Not Fighting . . .**  
Somewhere in Germany, Max Schmeling, former world's heavy-weight boxing champion, is "living the life of a country squire." First reports stated that Max was in the front line trenches, however, Schmeling turned up in Berlin the other day to take his "flying at the city life" before retiring to quiet days on his estate in the Pomerania.

**Kellogg Spark's Tulane Win . . .**  
Bob Kellogg, former N.J.C. gridster, saved Tulane from almost certain defeat in their opening game with Clemson. With Tulane trailing 6-0 late in the third quarter, Kellogg broke loose for a 38-yard run; then, almost single-handed, he began cracking the line in a series of line plays that netted twenty-four yards and a touchdown. Bob also booted the extra point that put Tulane ahead.

**Indians in Other Camps . . .**  
Several former N.J.C. Tribesmen are influencing football on other campuses this fall. Allen McNeese is line coach at Union university, Jackson, Tennessee. Two of his charges are none other than Dick Tipton and Herbert Holloman. Over at William and Mary college we see that Jack Giannini was in the starting lineup against Navy. Vernon "Cotton" Leatherwood is playing at S.L.I. Over in Commerce, Texas, at the East Texas State Teachers college, are football men who made history for N.J.C.—Ernest Freeman, Red Anders, Dick Elliot, and Raymond Laeve.

## Apperson Talks On Democracy

A patriotic program was presented at the regular assembly on Wednesday. It opened with the entire group singing "America" and "Alma Mater." Reverend E. F. Hayward gave the invocation. Mr. Ed Apperson, commander of Barkdull Faulk Post of the American Legion, was guest speaker. He spoke on the aims and purposes of the American Legion, especially emphasizing the Legion's constant combat against un-American ideas. He explained that its purpose is to preserve personal liberty. The assembly closed with the singing of the "Star Spangled Banner."

Immediately following the regular assembly, Mr. Albert Tangora, the world's champion typist, gave an exhibition of the speed which won for him the world's record.

## A CREDIT TO OUR CITY

### the POW WOW

We are greatly interested in your activities and progress during the school year even though we're not members of your student body.

The POW WOW is our best source of information and we always enjoy reading of your successes in obtaining greater knowledge to be used advantageously in the future.

Whew! The election is over! And what an election! There seemed to be quite a conflict as to who was running for what and on what ticket. Such notices as "I, Whoosit, am running for So and So on Such and Such ticket, and I am not connected with any other party in any way," became somewhat numerous as the election progressed.

Did you notice the parade of sweaters and letters the first cold day of the season? Quite a variety, eh what? . . . Ceryc Frey (who hails from Jonesboro) found so many dazzling sights at N.J.C. that he had to get some glasses to protect his eyes . . . Have you heard the latest? Well, if you haven't here it is. The boys in the dormitory staged a jitterbug contest the other night. —And none other than Irving (pronounced Oiving) Zeidman and Bill Abraham walked off with all the honors. "Tuffy" Westerman "did himself proud" when he went into the Oklahoma stomp. Even Coach Huffman entered the fun and "trucked on down."

I guess it's too late now, boys, to lay a claim on that cute little Billie Ruth Ryder from Alexandria—that is, if you have not already. It seems that all her time is taken up now. I hear that she also has an interest in an outsider. (He doesn't go to N.J.C.) Somebody had better be careful.

Overheard in the cafeteria: Rudy Broussard, "Gee, I hope it doesn't rain next Friday night. I might slip off the bench and hurt myself." . . . Incidentally, he DID slip off the end of the bench last Friday night—but, it wasn't raining.

Seen on the campus quite often: Mac McElfatrick and Jo Ann Veach. They might as well enroll and start going to classes. R. E. Autrey finally did.

Our young red-headed preacher, Bill Byrd, has his eye on a certain beautiful blonde nurse. Who is she, Bill? . . . Who is the boy who is always seen in the company of Patsy Slack?

Campus steadies: Roy and Joy (Smith and Pettit respectively), Ralph Kieuthe and Lodi Cann and Barbara McKenzie—another triangle yet to be solved . . . It is rumored that a certain N.J.C. student (we won't mention any names) quotes Shakespeare to his image in the mirror in the morning before coming to school . . . A certain sophomore girl wants to know why John Keeton is so shy. Could it be because he has, . . . well, we'll just leave it that way.

Well, students, that's all there is, there just ain't any more. S'long 'till next time.

Louisiana college journalism will be influenced this year by three alumni of Northeast Junior college: Hodge O'Neal, Johnile Curry, and Karl Smith.

Hodge O'Neal, from Rayville, graduated from N.J.C. in 1936 with a straight A record. He was an active member of Phi Theta Kappa, national honor society for junior colleges. He continued his pre-law course at Louisiana State university where he received the signal honor of being named valedictorian of the class of '38. His straight A record was the first that had been made in ten years in the law school. He is a member of Phi Kappa Phi, national honorary fraternity.

Last spring Hodge was appointed Chief Justice of the Honor Court for the present school year. In addition to this responsible position, he was named editor of the Louisiana Law Review, published by the university press.

Johnile Curry, also from Rayville, completed her work at N.J.C. in 1938. She was actively interested in various student organizations and was a member of Phi Theta Kappa. In 1937 she was appointed editor-in-chief of the Pow Wow, college newspaper. She entered the teachers college at Louisiana Tech, where she has since served on the editorial staff of the Tech Talk. She was selected editor of the Tech Review, literary quarterly, for the 1939-1940 term. Several of her poems have appeared in The White Heron, Poetry Anthology of Louisiana Women.

Karl Smith of Monroe, graduated from Northeast Junior college in 1937. He was very interested in student publications and did splendid work as business manager of the Chacaboula, college yearbook.

He matriculated at L.S.U. as a major in journalism. He soon became identified with university publications as business manager of the Pell Mell, humor magazine, and as special advertising agent for the Daily Reveille. Last spring he was elected secretary of the Southern Student Press Association. Soon following that honor he was appointed editor-in-chief of the Daily Reveille.

### Classes Favor

(Continued from page one)

tively, expressed themselves early this week as "well pleased" with the possibilities of the formation of a student council here.

Addison stated, "The student council plan is a fine one, indeed, and its formation would unite the two classes and afford the students ample opportunity for adjusting campus activities and conditions to suit their ideas and needs."

Singleton said, "The sophomore class is one hundred percent behind the student council idea. Personally, I think it would give the student a chance to use his ideas on campus government to

good advantage. The editorial that appeared in the last issue of the Pow Wow was very timely. It gave the student council plan a good boost."

### Parade of

to 3 ratio in favor of retention of the present arms embargo.

Flying . . .

While demanding that the U.S. stay out of any war that is not fought on our own soil, the college press nevertheless believes in preparedness so far as the air is concerned. It is thumping hard for the college and university flying courses sponsored by the federal government through the Civil Aeronautics Authority.

"Air travel is becoming increasingly important in many industries, including geology, oil scouting, and production. Many oil companies, both large and small, own their ships and use them constantly. The ability to operate a plane would be an asset to many workers in industry. The type of flying instructions to be given here is for light ships and is intended to make the student 'at home in the air.' With this as a basis, students, if interested, could continue study in that field, and have a good foundation." The University of Tulsa Collegian points out the local advantages of the flight training course, as did most college editorials on the subject.

The Campus Collegian of the University of Toledo had this to say in favor of the course: "Students who will take the university's flying instruction course this year will receive valuable training in theory and in actual flying that they could not get elsewhere for ten times the cost. So far as safety in the training program is

### Purple Jackets Open Activities

The Purple Jacket club has entered its activities for the coming year with great expectations for making it one of the most successful in the club's history.

At a recent meeting Marian Smith was elected from the sophomore class to fill the vacancy left by Carolyn Oliver, who is now attending L.S.U. Patsy Slack was elected as the new treasurer. The other officers for this year include Mary V. Beard, president; Beth Rinehart, vice-president; Sidney Ruth Waddle, secretary; and Marguerite Ikerd, reporter. A motion was carried that the club march behind the band at the half at the football games.

The club is making plans to assist in making Homecoming Day a great occasion, as it is every year. Besides sponsoring the homecoming dance, the members will act as guides, and help in every way possible.

concerned, it is significant that out of several hundred students who were trained last year when the program was in its experimental stages, not one serious accident occurred."

Said the University of West Virginia Athenaeum: "Some students shy from it because they think it will place them under military obligations. The course is not under false label. It is a civilian pilot's training course and is under the Civil Aeronautics Authority. The ultimate purpose of this civilian pilot training, so the government says, is to give the aircraft industry a 'shot in the arm'."

### Guillory Elected By Engineers

At the initial meeting of the Engineer's club on October 5, the following officers were elected: Troy Guillory, West Monroe, president; Deryl Morris, Monroe, vice-president; Claude McLemore, Rayville, secretary-treasurer; John Duchkar, sergeant-at-arms; and Leon Fife, West Monroe, reporter. Mr. Lewis Slater was chosen faculty sponsor.
