### **Geology Department Conducting Yearly** Summer Field Camp For Seventh Time

For the seventh straight year the department of geoglogy at North-east is conducting a summer field camp at Batesville, Ark.

Twenty-three students, including one from Teheran, Iran, are en-camped near Batesville, located in the compete near Batesvine, located in the footbills of the Boston Mountains. One of the largest groups ever to at-tend, it also includes students from Mississippi Southern at Hatties-burg, Louisiana Tech at Ruston and Southern State at Magnolia.

Southern State at Magnolia.

Marcus Mapp, assistant professor of geology and acting chairman of the department of geology, is conducting the field camp. Asked why the geology group chose the Bateswille area each year, Mapp answered, "Many geology departments go to the Rockies or the Appalachians for their field trips, but the geology department at Northeast chose this area because it has just as much to offer as the Rockies or the Apparament.

lachians, within a much shorter distance from the College. There are just as many different phases of geology as either of the other sites over a much smaller area. The Batesville area also has excellent physical and historical features.

physical and historical features.

Geology summer field trips are a requirement for all geology majors, Mapp explained. In the infancy of the geology department of Northeast, Mapp said the staff realized the potential of the Batesville region. Under the guidance of John H. McCarter, Jr., the first camp was established during the summer of 1954.

Formerly known as earth science, geology deals with the forces of nature and how they combine the features visible on the earth's surface

as well as beneath the ground.

Mapp said the scope of study for the students is with the Placozic era

### ANNUAL "MELON CUTTIN"-

Division and department heads at Northeast served slices of watermelons instead of lectures to students at the college's nual "melon cuttin" Mor Monday morning.

Top members of the administration and faculty sliced and served some 325 cold Calhoun melons. The 50-minute break in the school's summer class rou-tine took place on the bank of Bayou DeSiard near the pres-ident's home.

Monday's class schedule was rearranged to permit everyone at the college to attend the

watermelon party.
Students, faculty and staff attended the annual affair.
In the top corner, Northeast students scatter on banks of bayou as they try their tasting lines.

On the left, Dr. William R. Hammond, dean of liberal arts, supplies a "liberal" portion of melon to Carolyn Nappier from Monroe.

On the right, Steve Steuben shows us how to really enjoy a slice of melon.

(Photos by John Fogleman)

### **Outdoor Lighting** To Be Installed: **Low Bid Submitted**

Freeman Electric Co. of Monroe has submitted a low bid of \$24,888 for the installation of additional outdoor campus lighting at Northeast.

An electronic device will automatically turn the lights on and off as outdoor lighting conditions re-

quire.

The lights will be located along the sidewalks in front of the buildings facing DeSiard Street, on both sides of the drive behind those buildings, on the drive from behind the president's home to the dormitories and on the extension of Hippolite Street to be built from College Avenue to the new dining hall.

#### Four-Year Program Of Nursing To Open

Applications are being accepted for admission to Northeast's new department of nursing, which opens in

partment of nursing, which are Schember.

The department was authorized by the State Board of Education earlier this year to provide a four-year program leading to a bachelor's degree in nursing. The student also qualifies to take the state examination for registration as a professional nurse. Pre-entrance aptitude tests have been scheduled in early August for additional members of the departalistic schembers.

additional members of the depart-ment's first class. Scholarship awards are available for candidates who have demonstrated through testing and personal attributes their fitness for nursing.

#### APPLICATIONS

Application blanks for admission and for scholarships may be obtained by writing to the chairman of the department of nursing, Northeast Louisiana State College, Monroe. A statewide survey has shown the shortage of professional nurses continues to be acute with the greatest

shortage in Northeast Louisiana The program at Northeast is open to both men and women, either sin-

to both men and women, either sin-gle or married.

College officials pointed to a great demand for male nurses and said that traditionally most educational pro-grams in nursing have not been avail-able to men and that the marriage of women students has forced their

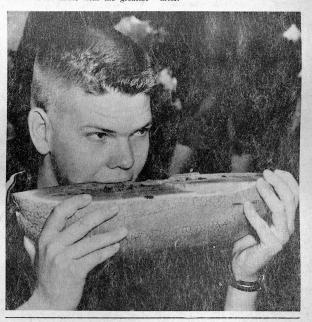

women students has forced their withdrawal from the programs.

The facilities of two Monroe hospitals—St. Francis, a private hospital, and E. A. Conway Memorial, which is state-supported—will be used. The

### Today's Pow Wow Last For Summer

Today's issue of the Pow Wow is the last for this summer. Publication for the fall Pow Wow will begin on September 30. It will be published on every Friday there-after.

## 72 Candidates Listed Here In Summer Commencement

A total of 72 students are listed as candidates for summer graduation which is scheduled to be held on the lawn of the president's home Tuesday, August 8. Half of the candidates are from Ouachita Par-ich

The Division of Education leads in total number of candidates with 38 and the Division of Business Administration is second with 15. Liberal Arts has 5 candidates; Geology 4; Agriculture and Home Economics 3 and Pharmacy 3; Biology 2; and Chemistry and Physics have one each

The guest speaker for the oc-casion will be Joseph J. Davies, Jr., president of the State Board of Edu-cation. Music will be supplied by the summer band, conducted by Eloy Fominava, and the summer chorus, under the direction of Davis B. Bingham, said Jasper G. Hammons, chairman of the commencement

committee.

committee.

President George T. Walker, assisted by Dr. Clint O. Hanna, diector of admissions and special services, will present each graduate with his diploma.

A reception for the graduates, their families and the faculty will follow the commencement exercises in the home of the president. The exercises begin at 6:30 p.m.

THE SPEAKER

The commencement speaker, Da-

THE SPEAKER

The commencement speaker, Davies, was born in Algiers, La., in 1913. He was edicated in the public elementary and high schools of Jefferson Parish.

Davies received his B.A. degree from Tulane University, his M.A. later in 1948 from Tulane University. While there he lettered in baseball and basketball.

The speaker began teaching in (Continued on page 3)

### Editorials

### What Seems To Be The Trouble?

Where do you try to study and get your homework? If you've ever tried the library here on campus, you realize that you can no studying done there.

get no studying done there.

First of all, the humidity is so high that the heat is almost unbearable. Although there are several fans attached to the ceiling, there seems to be very little air stirring, if any. When one sits directly beneath one of the fans, which is very seldom possible, there is still no relief from the heat. In my opinion, air-conditioning or some type of "cooler" cooling should and could be installed in this building. If one is to study or get homework, he must be free from the practice of constantly "mopping" his brow.

Secondly, the ratio is were distudying in the library. The library.

Secondly, the noise is very disturbing in the library. The library Secondly, the noise is very disturbing in the library. The library is meant for those students who desire to make reference to the books offered there or to find a peaceful place in which to study away from the crowds. But it seems that our library is being used not for a study room, but a social room. Laughter and chattering of the extra "friendly" students disturb the students who are trying to make the proper use of the library. So, students, don't you think you could lower your voices in the library or better still, make your social contacts elsewhere? Try to consider someone besides yourself.

### Enthusiasm

Let me ask you a very important question. Are you fully alive? Do you live life to its fullest or do you just live from day to day? Don't ever take life for granted. Make it a privilege and a pleasure. With each day that passes, something new and wonderful hap-pens. It may be some fabulous fortune that comes our way or it may be just the pleasure of looking at the things that nature produces for us. It is a true fortune to be able to look freely upon the beautiful. So often we abuse these wonders by merely passing and repassing them without thought of how thankful we all should

Life is free to everyone. Naturally we have to have food in order to live, and food is by no means free today. But think of life in different terms, not how much it is going to cost the next day. Life is at its best. It bestows the priceless gift of enthisiasm, the life-changing possession that makes each of us what we are in the world. Enthusiasm enables us to really live. You get it in the process of the control of the c your own way. Some people get it naturally; some artistically; some the hard way, by striving for it.

When we have enthusiasm for life in our hearts anything is possible to secure and we can all enjoy life to its fullest.

R. Teagle Speaker

At Three-Day Meet

Science must be vitalized in the classroom if schools attempt to strengthen their programs, Raphiel Teagle of the State Department of Education told the Science Workshop group last week when it opened here at Northeast

The three-day meeting was sponsored by the college and the State Department of Education for science

at Northeast.

Plain Talk . . . "What's the use?" and "Why should IP" are the two most fatal phrases in the English language. They make

in the English language. They make the dividing line between success and failure for hundreds of thous-ands of human beings.
"What's the use?" is the philos-ophy of the chap who throws up the sponge when the battle has been started. He sits down alongside of the road when he finds that the signpost has deceived him-instead of lengthening his stride. He is satis-fied with "good enough." He has no goals, no visions. He accepts no

fied with "good enough." He has no goals, no visions. He accepts no challenge.

"Why should I?" is the cry of the work-dodger. His aim is to do just enough to "get by." He is a clockwatcher who is afraid he will render more service than he is paid to perform. He is too lazy to think, too selfish to put his shoulder to the wheel in a common cause.

How much more vibrant and dynamic are the phrases, "It can be

namic are the phrases, "It can be done!" and "You can count on me!"
These phrases sparkle with the spirit of success and never fail of sufficient reward.

vard. The Windham's, Jo and Julian

Henry FORD

Henry Ford the First, out of long experience, once said: "Anyone who stops learning is old, whether this happens at 20 or 80. Anyone who keeps on learning not only remains young, but becomes constantly more valuable, regardless of physical capacity."

LITTLE MAN ON CAMPUS

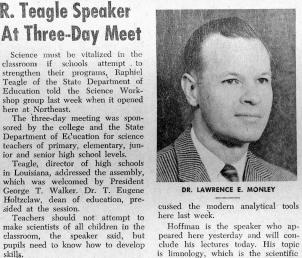

I ALWAYS GIVE THAT KID TOP PRICE FOR HIS BOOKS I DON'T THINK HE EVER OPENS THEM."

# Last Two Speakers Appear At Institute

Dr. Lawrence E. Monley, a professor of chemistry at East Tennessee State College, and Dr. Carl Hoffman, chairman of the University of Arkansas zoology department, are the last in a series of seven guest speaker to appear before the summer institute in biology and chemistry.

Monley, who is in charge of all

Monley who is in charge of all phases of analytical chemistry at East Tennessee State College dis-

DR. LAWRENCE E. MONLEY

cussed the modern analytical tools here last week.

Hoffman is the speaker who appeared here yesterday and will conclude his lectures today. His topic is limnology, which is the scientific

study of fresh waters, especially ponds and lakes.

#### MONLEY

Monley, a native of Kansas, has taught for 15 years on the college level with assignments ranging from junior colleges to large Southern universities. In the fall he is scheduled to join the chemistry department of the University of South Florida, where he will be in charge of analytical chemistry.

where he will be in charge of analytical chemistry.

Monley received his B.S. degree from Rockhurst College, his master's from Florida State University and his doctorate from the University of Florida. His research interests have centered about development and evaluation of new reagents for analytical world as development in the control of instru

evaluation of new reagents for analysis as well as extension of instrumental methods.

Recent directed research concerns spectro-photometric analysis of vitamins A and D; colorimetric and Polarographic studies of certain iron complexes; and investigation of the acid strengths of a series of organic dues.

Hoffman went to the University of Arkansas as an instructor in 1938 and with the exception of several years in the Navy has been there ever since. In 1949 he became a full professor and in 1957 he was named chairman of the zoology department.

The guest lecturer spent 1944-46 in the Navy, where he was an avia-

### All New Freshmen **Enrolling In Fall Must Take Tests**

Registration for the fall semester will begin on Wednesday, September 14, and conclude on Thursday, September 15. Classes will begin on September 16, 1960.

Dr. Fred J. Vogel, dean of student services beginning the information

services, has given the information concerning the Orientation Guidance

The Orientation Guidance Tests are required before any new under-graduate may register at Northeast. Therefore Friday, August 12, is be-ing set up as the date to administer the series of tests to students who have not yet taken them at Northeast.

"All students who anticipate taking these should plan to spend from 8:00 a.m. until 4:30 p.m. at Northeast."

Any additional information be obtained by contacting H. R. Sig-ler, director of testing and guidance, room 218, administration building, Northeast campus.

Freshmen will be admitted to the

dormitories at 10 a.m. on September 11. The cafeteria will serve the evening meal on Sunday. An assembly will be held at 9 a.m. in Brown Hall all freshman on Northeast

tion physiologist. Before going to Arkansas, he had been an intructor Arkansas, he had been an intructual at Lawrence College in Appleton, Wis., and a teaching fellow at the University of Michigan.

Hoffman's research interests have centered on Limnology, aquatic insects and aviation physiology.

#### SUMMER POSITIONS

During the summer he has held such positions as aquatic biologist with the Institute for Fisheries Research in Michigan and with the Arkansas Game and Fish Commission. He has also been a faculty member on the National Science Foundation summer institute at the University of Arkansas. Since 1937 Hoffman has been a member of the Arkansas Game and Fish Commission.

Hoffman received his bachelor's degree from Lawrence College and his master's degree and Ph.D. from the University of Michigan. He was born in Appleton, Wis., is married and his two daughters and one son.

### NINE-WEEK INSTITUTE

Hoffman is a member of the Ecological Society of America, the Limnology Society, the American Microscopical Society, the American Fisheries Society, the Arkansas Academy of Science and the American Society of Zochorits.

Academy of science and the American Society of Zoologists.

The nine-week institute financed by the National Science Foundation, is designed for high school science teachers. It will end Aug. 6.

#### LETTING THE CAT OUT

In early days it occasionally hap-pened that the farmer who took a pened that the farmer who took a pig to market took also, in another bag, a cat, and when the unsuspecting buyer had paid the price, he discovered on reaching home that his bag contained a cat. If, being suspicious, he investigated before taking his bag home, he "let the cat out of the bag." If he did not look into his bag, he made the discovery that he had "bought a pig in a poke." Hence the origin of these two sayings. two sayings.

#### POPULAR NEIGHBOR

"What makes your neighbor so unpopular?"

"He's fixed his lawn-mower so you have to drop a nickel in the slot to make it go."

A picnic and concert was held Wednesday afternoon on the bayou banks of the president's home.

banks of the president's home.

The Northeast Summer Band, conducted by Eloy Fominaya, presented a program of various works by various composers. Among the selections chosen to be performed were "Ode for Trumpet," featuring Glenn Baxter as trumpet soloist, "Overture from 'Kismet'," "Missouri Shindig" by H. Owen Reed, and selections from the musical "The King and I" by Rodgers and Hammerstein.

Dinner was served to students hav-

by Rodgers and Hammerstein.

Dinner was served to students having meal tickets and anyone desiring to be served at the price of 55 cents.

Others brought picnic baskets.

All faculty, staff and students were invited.

### Dance To Honor Seniors Called Off

It is a policy of Northeast not to have any activity planned for Wednesday nights. Wednesday nights are set aside for the religious organizations on campus. Because of this policy the dance which was planned for next Wednesday, will not be held.

held.

This dance was to honor the seniors who will graduate in August. The date cannot be changed to the usual Thursday night because of the Fine Arts showing of "Knute Rockne—All American" on that night. Seniors will be taking final examinations on August 3 and 4, making either date impossible.

## **Association Tells About Next Series**

About Next Series

The coming year's program for the Northeast Concerts Association will include the famous Mantovani orchestra and the Christmas opera classic, "Amahl and the Night Visitors." The opera will have the original NBC cast.

Also included will be a major musical direct from New York; Byron Janis, the dazzling young piano virtuoso; Gen. Carlos P. Romulo; and the La Salle String Quartet.

A New York musical. "Theorello," will be presented with a cast of 75, with its orchestra. The Air Force Band and the Singing Sargeants will be guests of the Association in early May of 1961.

be guests of the Association in early May of 1961.

A big year of activities is planned for the members of the Association, according to Dr. Harry Lemert, dean of fine arts.

of fine arts.

The Association is an official project of Northeast. The Association was founded in September of last year to sponsor and present a program of live professional entertainment for college students and the public. The organization grew out of a mutual agreement between Northeast and the former Community Concerts Association of Monroe.

### Two Supervisors Attend Workshop In Nashville, Tenn.

Two supervising teachers for Northeast attended a two week workshop at Peabody College.

Mrs. Irene Smith and Mrs. Mary L. Humphries, both fourth-grade teachers at Lakeshore Elementary School here, participated in the workshop, which was designed for supervisors and others who work with student teachers.

Mrs. Smith and Mrs. Humphries both supervise student teachers from Northeast at the elementary school.

both supervise student teachers from Northeast at the elementary school. Officials said the workshop was organized around the problems of supervisors and administrators of student teachers. Special attention was planned to the problems faced by those enrolled in the workshop.

Mornings were used for observa-tions in the Peabody Demonstration School, group meetings, committee meetings and study. Afternoon hours were reserved for meetings of the entire group and for separate workshop groups.

George Peabody College of Teachers is in Nashville, Tenn.

### Dormitories Open For Fall Semester

Dormitories will open for freshmen at 10:00 a.m. Sunday, September 12. They will be open for upper-classmen at 1:00 p.m. Tuesday, September 13.

August 11 will be the final date for refunds on room deposits. Any room deposit now in the auditor's office must be claimed before this deadline or the ten dollars will be relinquished.

The cafeteria will open for the evening meal on Sunday, September 11. All students living on campus at this time will be served.

#### FINAL EXAMINATION SCHEDULE **SUMMER, 1960**

All classes, including laboratory groups, will observe the above schedule.

The tabulated time is, in general, the first class meeting of the week. Exceptions are:
a. Use lecture rather than laboratory period.

Use the first full class hour if the class meets more

than one hour per day.

All classes will meet as regularly scheduled through Friday, August 5.

3036 DeSiard St. -- Monroe, Louisiana

Why Pay More? Save At Balsamo

WITH VIRTUE YOU CANNOT BE ENTIRELY POOR . . . WITHOUT IT YOU CANNOT BE REALLY RICH.

ROTC CAMP AT FT. HOOD—Wilbur L. Perkins, head of the business administration department, visited Ft. Hood, Tex., where the ROTC cadets are attending the summer camp. Perkins is shown with Ronald L. Mock, Jerald H. Womack, and William R. Ross, all of whom are members of the Northeast ROTC training group. (Photo by the United States Army)

After a class toured the White House, the teacher asked each student to write impressions of the visit. One boy wrote: "I was especially glad to have this opportunity to visit my future home."
