

Peer reviewers are asked to blind their work when providing edits or comments to the manuscript. Reviewers should clear personal information in the manuscript by following these steps:

To Remove Authors Names from Comments:

Open the **Word Document**

Click '**File**' then "**Info**"

Click "**Check Issues**"

On drop down list click "**Inspect Document**"

In Document Inspector ensure "**Document Properties and Personal Information box**" is checked.

Click "**Inspect**"

Click "**Remove All**"

Click "**Close**"

Hit "**save and the authors names are replaced by letter A**"

To Reverse this:

Open **Word**

Click "**File**"

Click "**Options**"

Click "**Trust Center**" and open "**trust center button**" to right

Click "**Privacy Center**"

Click on "**Remove Personal Information from file properties**"

Click "**OK**"
